

ACT Introduction

This self-paced class is delivered through Canvas, a Learning Management System. It is always available and you have lifetime access.

All your children can use this class. You can create a login for each child (they will each need a unique email address).

In signing your child up on Canvas you give permission for them to use the site.

Please go to <https://canvas.instructure.com/enroll/F47AKE>

This will take you to the virtual classroom. If this is your first time using Canvas, make sure to watch for the confirmation email which allows you to create your password - write down the password somewhere safe as password resets are a bit slow with Canvas.

You can link a parent account to a student's account. [Here](#) are the instructions on how to do that.

Once you are logged in, click on Modules, and in the Introduction Module, click on 'Start Here'. Once you have read the information, the rest of the unit study will unlock. Assignments can be completed in any order.

If you would like to use our ACT Tutoring services after working through this class, please use coupon **5OFFACT** for \$5 off the first hour (valid until 12/31/23). To learn more about our ACT Tutoring, you can watch this video: https://youtu.be/_RLLoAB7RQ4

We have many asynchronous classes too that are designed to be engaging AND to prepare students well for college. View them on [Fundafunda Academy](#). And our [High School Challenge](#) is a college prep class that rewards students with prizes!

Any problems? Just email info@fundafunda.com.
